- The row marked by * is used for the extra day (leap day) before the New Year's day and the first day of the month, the 7th moon, wherein Summer Solstice comes.
- These marks have minor discrepancies in that they follow different times, Moons by UTC and 24 Seasonal Marks by Korean Standard Time.
- This chart is designed for both Northerners and Southerners. However, Southerners have the Gregorian Calendar dates differ from the Northern counterparts.
- Use the next page for your data.
- Please feel free to send your chart to Dr. Hwang (ninemagos@gmail.com). Yours may be displayed in a sample book in which your personal data will be protected.

MARK YOUR MENSTRUAL DATES FOR TWO YEARS!

(For example, you can enter dates in the 13 spaces of the outer circle
can for 2019 and the second outer circle for 2020. Then, transport the
dates in the previous sheet.)

ABOUT THE AUTHOR

Helen Hye-Sook Hwang, Ph.D. is scholar, activist, and advocate of Magoism, anciently originated tradition that venerates Mago as the Great Goddess. She earned her MA and Ph.D. in Religion with emphasis on Feminist Studies from Claremont Graduate University, CA. She also studied toward an MA degree in East Asian Studies at UCLA, CA.
